The truth isn't out there, it's in here.  
Watch the skies. Keep looking.

## AND CONTENTS

### Dear alien abductee,

There is no guarantee that you will be abducted by aliens once you have read this manual. We cannot predict who aliens will abduct next, or when they plan to abduct someone from earth. It is not for us to know the wisdom of visitors from other worlds. But we know that the information in this manual will help you maximise your chances of being abducted by aliens.

The information here has been researched from a wide variety of sources in the UFOlogy and alien abduction community. By understanding more about visitors from other worlds, the kinds of spacecraft they fly, the locations in which they've been sighted and the type of person they usually abduct, you can prepare yourself as fully as possible to be abducted by extra-terrestrials.

There is no certifiable proof that aliens exist, or that people have been abducted. But there is no proof that they don't exist, and that many people haven't been abducted. Abductees and UFOlogists typically have to fight against widespread scepticism of their claims.

What do we believe? We believe that it's better to believe. The key to your enjoying the experience of alien abduction is learning how to wait, so take your time and enjoy this manual. We hope it will help you get the most out of your abduction by aliens.

Bon voyage!

## SOME COMMONLY SPOTTED UFOS

The British Isles attract a certain type of UFO. The following are listed in order of their frequency of visits.

### The Saucer

- ✦ The classic 'flying saucer' shape, reminiscent of an upturned dish, often accompanied by flashing lights
- ✦ Large variation in reported size and dimension
- ✦ Easily forged by amateur hoaxers
- ✦ Very common in sightings today

### The Cigar

- ✦ Cylindrical, cigar or missile-shaped
- ✦ Of varied size and length. Fast moving. Able to turn, change direction and stop at high speed
- ✦ Former airline worker Douglas Wragg, 71, witnessed a cylinder-shaped flying object 'like two rolls of carpets' which climbed to over 20,000ft over Petts Hill in 2003

### The Foo Fighter

- ✦ Bright orbs of light of varying dimension from 10-100ft
- ✦ Most commonly reported during World War II by pilots, and investigated by the Royal Navy and Home Office
- ✦ In 2003 a man in Erdington claimed a small bright light which he described as 'a Tinkerbell' fluttered through his house. Rose Gillespie and Marion Vance witnessed a green light above Craigneuk in Scotland. The light moved around their car before shooting off in the direction of Muirhouse

### The Delta

- ✦ Triangular or wing-shaped with lights on each corner
- ✦ 50-100 yards in length
- ✦ Occasionally attributed as a Vulcan or B-2 Stealth Bomber, or a supposed 'test' plane, the TR3B
- ✦ Spotted over Hainault, in August 2003, where Grace Thomas and her friend Mel Rex observed a 'squat oval shape' with bright lights and strange markings

### The Ring

- ✦ Circular or 'blob' shape
- ✦ 60ft in length
- ✦ Alternating flashes of colour
- ✦ Allan Spick, 66, described a 'hollow object' flashing red and yellow, 1,000 yards above his home in Belvoir Gardens, Lincolnshire in 2003.
- ✦ In September of 2003, Jim and Christine Webley spotted a 'strange blob-like sphere' in Bolsover, Derbyshire on three separate occasions

# WHERE TO BE ABDUCTED: TOP 40 UK HOTSPOTS

Logic suggests you're most likely to be abducted from places aliens are known to have visited, and this list is the definitive guide to alien activity in the United Kingdom. Some locations exhibit a high incidence of sightings while others report only one or two UFO visits – the locations have been ranked on a scale of one to ten accordingly. While it's clear that sightings can happen anywhere, aliens prefer to visit particular places in the UK repeatedly. The distribution is such that few people are more than one to two hours drive away from a likely alien abduction spot. The top ten hotspots are listed below.

- 1  
Bonnybridge, Lanarkshire, Scotland
- 2  
Cley Hill, Wiltshire
- 3  
The Great Orme, Llandudno, North Wales
- 4  
Bedhampton, Hampshire
- 5  
Walthamstow, London
- 6  
Bonsall, Derbyshire
- 7  
Rendlesham Forest, Suffolk
- 8  
Bexleyheath, Kent
- 9

**King's Lynn, Norfolk**

**Abductability: 6**

**UFO Type: Deltas, Rings, Saucers**

## HOW TO BE ABDUCTED BY ALIENS IN LONDON

THE AGE OF THE 'URBAN ALIEN ABDUCTION' IS HERE. EXPERT LONDON-BASED UFOLOGIST CHRISTOPHER MARTIN EXPLAINS HOW TO LIFT OFF FROM LONDON.

The visitors are here. London skies are swarming with unidentified flying objects. In the past few years UFOs have regularly been visiting areas of London including Shoreditch, Walthamstow, Chingford, Leytonstone, Aldgate, Whitechapel, Lewisham and Crystal Palace. There have been myriad sightings of spherical objects, black triangles and cigar-shaped UFOs.

Forty-three-year-old Christopher Martin has emerged as an expert on the UFOlogy of the capital. An East Londoner, he regularly gives talks and appears on TV, while his book *'Intruders in the Night'* intimately documents his own experience of alien sighting and abduction.

'You can be abducted by aliens anywhere and at any time,' says Christopher, 'but the classic abduction is where you're lying in bed and you're awakened by a bright light. You become paralysed and are lifted or floated out of your room, often through the walls, and brought onto a spaceship. Experiments are carried out on you, and you are then put back into bed.'

Martin is far from traumatised by his alien abduction of several years ago. On the contrary – the experience filled him with a thirst to discover more about our alien friends, and he now devotes time to breaking down misconceptions around UFOs and extra-terrestrial abduction. The first of which is that the best time to be abducted by aliens is at night – 90 per cent of UFO sightings have been on very clear days. Aliens will happily take you as you're sunbathing in your back garden.

The second, Martin explains, is that alien sightings and abductions take place more often in the countryside than in the city. Yet city-dwellers reporting many more sightings and abductions. In 2001, Martin shot extraordinary footage from the top floor of Denning Point tower block in Aldgate East, where a silver spherical object is seen flying towards him and hovering above.

Martin now devotes the majority of his time to skywatching. 'Aliens normally show themselves on clear days, with little cloud,' he says. 'If you've got a large back garden with a good view of the sky then that will suffice. Failing that, take to the streets and find a nice large plot of land, such as Wanstead Flats or Hampstead Heath where you can sit down and watch the sky.'

'I find that meditating beforehand will help you to concentrate and possibly to communicate with the aliens through telepathy,' he adds. 'If you see a craft in the sky you should concentrate on it and try to speak to it through telepathy. Calmly tell them your name and ask them to take you away.'

But keen abductees needn't stay within the street of the capital, Martin argues. A spin on the orbital routes and arteries of the capital are ideal alien abduction 'UFOecals' – which have a clear view of the sky in front and a quiet road, aliens can follow easily. You may notice that your radio becomes crackled – FM frequency loss is a common indicator of an impending abduction. And 'lost time' – the unaccountable hours between first sighting aliens and returning to normal consciousness – means your dashboard clock might not be much use either.

Chris has very little memory of his own abduction by aliens several years ago, but he relishes being taken again. 'It's frustrating not being able to remember exactly what happened. Often they will put 'screen' memories in your brain, to cover up the memory of the abduction. Images of owls often appear in people's minds, probably because with their big eyes they bear a resemblance to the Greys. Even if you remember nothing at first, something usually happens at some point where it permeates your consciousness and you start to remember pieces until it all comes flooding back.'

He has no idea when the next visit is planned. But in the heart of the East End Christopher Martin continues to watch the skies. He knows the visitors aren't far away.

# MOST WANTED

THE 10 BRITONS MOST LIKELY TO BE ABDUCTED BY ALIENS

Aliens are not stupid. They do not select candidates for abduction on the basis of their wealth, looks, ability to sing or dance, or on the straightness of their hair, knowledge of soap plotlines or current affairs. Research has shown aliens abduct a certain kind of human – people with intelligence, good communication skills, environmental concern and a sense of adventure. They may also drive or take walks in lonely places. The following candidates closely match this profile, and are likely to be abducted by aliens at any moment.

## 1 Johnny Wilkinson, rugby player, 24

The unassuming England XV player maintains a low profile, but his quiet intelligence and physical strength shout loud. A man who stands apart, he is routinely found in the remotest regions of the pitch, silently waiting. Adept at catching flying objects, Wilkinson is the dream alien abductee.

## 2 Brian May, guitarist, 57

Queen's wild-haired guitar hero Brian May exhibited a keen interest in the cosmos by choosing to read Physics & Infrared Astronomy at Imperial College. If we believe the wisdom of *Withnail & I's Dandy* – 'Hair are your aerials. They pick up signals from the cosmos' – Brian may already be in contact with aliens.

## 3 Alan Titchmarsh, gardener, 53

With an appeal transcending age, sex and class boundaries, affable BBC gardener Alan Titchmarsh is one of the country's leading communicators. When he talks, the nation listens in. Extensive periods of time spent alone in gardens place Alan at high risk of abduction by aliens.

## 4 Ellen Macarthur, yachtswoman, 27

Demonstrating superior physical and mental strength, yachtswoman Ellen Macarthur sailed single-handedly around the world. Being alone on the high seas for weeks at a time mean Ellen is a likely candidate for alien abduction.

## 5 David Bowie, rock star, 57

Bowie repeatedly invoked space travel, aliens and cosmology in his songs, suggesting profound knowledge of other worlds. At the height of his rock star excesses, Bowie became convinced that aliens were trying to abduct him – the extra-terrestrials clearly had good taste in music.

## 6 Bjork, singer, 38

The eccentric singer is possessed of a fierce intelligence and is an active voice in the environmental lobby. 'All the modern things/Like cars and such/Have always existed/They've just been waiting in a mountain/For the right moment,' she sang, clearly hinting at knowledge of unknown civilisations.

## 7 Jay Kay, singer, 35

Jay Kay's hellraising profile masks a thoughtful character with profound environmental concern – his debut single 'When You Gonna Learn?' discoursed on man's destruction of nature. Regular spins from his country mansion in his cars also provide aliens with ample opportunity to abduct the natty popstar.

## 8 Sir Patrick Moore, astronomer, 81

The venerable astronomer has placed himself at risk of alien abduction throughout his life, spending the majority of his time scrutinising the night skies. His extensive knowledge of outer space fully qualifies him for a trip through the Universe aboard an alien craft.

## 9 Jenson Button, racing driver, 24

Jenson's love of the open road has taken him to the champion's grid of Formula 1 – but could it put him at risk of abduction by aliens? He enjoys mountain biking and snowboarding – adventure pursuits that lead him into remote territories perfect for alien abduction.

## 10 Kim Wilde, gardener, 43

Kim Wilde traded life as a pop star to spend more time with her plants, and is emerging as a celebrity gardener. Living in rural Hertfordshire, she enjoys long countryside walks and spends a lot of time in her garden during which abduction by aliens becomes a strong possibility.

# HAVE YOU EVER BEEN ABDUCTED BY ALIENS?

Many people may have been abducted by aliens without knowing it. They may have experienced lost time and be unable to explain markings on their skin. They may relive confused visions of other worlds and strange beings. They may also be afraid to tell others through fear of appearing insane. If any of this seems familiar to you, it could be a sign that you have been abducted by aliens. Take this questionnaire to discover the truth.

Have you ever gone to bed in one place and woken in another without knowing how? **Yes/No**

Are there periods of hours or minutes you cannot account for? **Yes/No**

It is extremely likely that you have been abducted by aliens. You have been chosen from among six billion people on earth by aliens wishing to make contact with humans. But you may not be alone – many thousands of people have had experiences similar to yours. # THE ART OF WAITING

There are few things that mankind is more ill-equipped to do than wait. Elevating the creative spirit, we define ourselves by what we do. Yet throughout history every culture has held patience to be a virtue. If we didn't find waiting so difficult, it wouldn't be a virtue. Those truly committed to being abducted by aliens must first learn the heroic art of waiting.

This is not as easy as it seems. It is typical of the human condition that the more time we have to do nothing, the more diversions we invent to occupy ourselves. The modern concept of leisure is a false construct that alienates us from our being. In order to become reconciled with true nature, we must first instill within ourselves a sense of patience.

The Buddhists listed Patience (ksanti) as one of the perfections required to attain the enlightenment of Buddhahood. Christianity has long equated self-denial with saintliness, believing that the ascetic life releases the soul from bondage to the body, allowing for union with the divine. This notion is directly sought through self-control and patience. Through the renunciation of petty desire the disciple aims to achieve the ultimate goal of life – moksa (release). For those who believe ancient religions found their roots through contact with extra-terrestrial life, the idea of release and union with a 'divine' being could point to one thing: alien abduction.

Modern philosophy can also help. In his Situationist classic *'The Critique Of Everyday Life'*, Henri Lefebvre argued that life is dominated by the meaningless and the trivial. For Lefebvre, capitalism's emphasis on the consumption alienated us from our true selves. The philosopher was interested in freeing us from this condition. Guy Debord elaborated on this thought in *'The Society Of The Spectacle'*. In a world where everything becomes a commodity, what are we to do? The answer is to wait.

But wait for what? Such a question is typical of those still in a state of human bondage, unable to escape the world of commodities. Our only duty is to learn how to wait: to empty our minds of all thought, to achieve a yogic sense of calm and attunement. We must create the habit of 'drifting' – not looking for the meaning in the everyday, but in allowing consciousness to impose its own meaning from above. Only then will the supreme, divine being reveal itself to us: only then will we achieve release from this world.

# HOW TO WAIT FOR ALIENS

The key to preparing yourself for alien abduction is to remember the 'C.O.O.L.' acronym:

**C**omposure  
**O**ppportunity  
**O**rganisation  
**L**ocation

**Composure:** To be abducted by aliens, first compose yourself. Clear your mind of day-to-day worries, gather yourself physically and become at one with your spirit. Open your mind and concentrate on the sky. Wait.

**Oppportunity:** Provide your alien abductors with the best possible chance to take you away. Book out entire bank holidays and have as many evenings as possible free for your abduction.

**Organisation:** Be prepared. Carry an 'alien abductee pack' at all times, including: tinned food and hot drink in case the alien diet is not to your liking. Some beer – to encourage conviviality in the aliens. An atlas to explain where you are from. Warm clothing: hat, scarf, gloves – it can be cold in the thin atmosphere of space. A good book – alien abductions often mean a lot of waiting around.

**Location:** Try to find an area of countryside or garden. Moors and plains used for military exercises are perfect, since locals will not think the odd flash of light or loud noise to be unusual.

**You are now ready to be abducted by aliens.**
