

About the Mermaid Realm.

The higher part of the mermaid realm is on a higher engonical frequency and is own special nature plane on Earth. Engonically is the upper position of this nature plane similar to the upper part of the astral level and a little bit into the mental level. This nature plane is therefore at energyplane 2. Seen from space at this frequency the entire Earth is covered with water and the planet is much bigger. The radius of Earth is approximately 124000 Km at that frequency compared to the radius 6378 Km at the engonical frequency for the physical plane. The mermaid realm reaches out to approximately 1/3 of the distance to the moon and down through and approximately 20 Km below Earth physical sea level. The Earth is approximately 19 times bigger at highest frequency of the mermaid realm and approximately twice the size of the planet Jupiter. Seen from the mermaid realm the Earth physical plane is part of a solid planet core. The water density on the mermaid realm is less dens than the water on earth physical plane and the visibility through this water is high. You can see space and the stars through this water more clearly than in air on the physical plane because the light is at energyplane 2 (90 billion Km/Sec wave speed) and has less loss through space. For a closer exlanation of the therm energyplane and so on see <http://www.galactic.to/TOREALF/s5t.txt> , <http://www.galactic.to/TOREALF/TH2T.TXT> and <http://www.galactic.to/TOREALF/S1T.TXT> The mermaid realm is organized in several zones according to harmonic vibrations of the base dimensional frequency that defines the realm. Most of the mermaid realm is in the astral frequency spectrum, but the lower part is at the upper part of the Earth physical dimensional frequencies. If mermaids swim down to the Earth surface they can easily shift into the earth physical frequency temporary making them visible. They do this mostly in water because they are water creatures. Mermaids at the higher frequencies of the Earth physical plane is invisible to the human eyes but its possible to take pictures of them with a camera sensitive to ultraviolet, x ray and gamma radiation. The upper part of the mermaid realm is at the mental frequency spectrum. At the physical plane the light wave speed is usually 300000 Km/Sec and this level is called energyplane one on the energy dimension. At the astral level the light wave speed is the physical light-speed multiplied with itself (90 Billion Km/Sec) at that wave-speed the light spectrum is a lot broader and and it therefor exists colors that don't exist at the physical plane. The energy-level don't decrease over distance as much when travel trough space as compared to the physical plane. Therefor the stars are much brighter and seems closer seen from the middle part of the mermaid realm and other middle and high astral realms.

To enter the mermaid realm you must bring your aura in resonance with one of the frequency harmonics of the mermaid realm dimensional frequency. The base frequency for the mermaid realm is at energyplane 2 (astral dimensional level) so the frequency of the mermaid realm present in the earth oceans is a sub harmonic to that frequency. To bring your aura in resonance with some of the frequencies of the mermaid realm you can use meditation. If your aura resonate 100 % you will teleport into the mermaid realm. If you meet a mermaid women (incarnated mermaid in a physical body) she may have the power to automatically bring your aura in resonance with frequencies belonging to the mermaid realm and you will experience parts of the mermaid realm. This can also happens if you meet a mermaid in the water in it's mermaid form. Advanced mermaids can easily teleport over great distances also between different star systems.

The mermaid civilization is a interstellar civilization with open contact to civilizations on other planets. Their main communication form is telepathy with thoughts, feelings and pictures. They seldom use words but some of them have learned to speak as a part of special missions. You can also bring your aura in resonance with mermaid realm frequencies using technology. This is frequency generators that transmits mermaid realm frequencies. This type of technology is extraterrestrial technology based on the use of crystals.

interpretation on SOME of the dimensions

There are inter-dim.crafts / ufo's that can 'dive' and penetrate the diff.dimensions

remark that all those are on different frequencies and thus invisible to each other, -as the diff. TV-channels are "invisible" from its own frequency

This picture illustrate the Earth size at different dimensional frequencies.

Space the mermaid realm occupy

Approximately 117642 Km

The increased size of Earth seen from the mermaid realm frequency

The size of Jupiter at the physical dimensional frequency

The size of Earth at the highest dimensional frequencies in the mermaid realm.

Seen from the mermaid realm the Earth is total covered by a big ocean several thousand Km deep.
The size of Earth at the highest dimensional frequencies of the mermaid realm is approximately twice the size of the planet Jupiter seen from the physical dimensional frequency.

On a lower dimensional frequency of the mermaid realm the Earth is smaller, but bigger than the physical size.
If you travel up along the energy dimension (dimension 5) the size of the Earth will increase at higher levels in the energy dimension.

The mermaid realm exists on several over harmonic dimensional frequencies to a base frequency.
To enter the mermaid realm you will have to make your aura vibrate in resonance to one of this harmonic frequencies.
